Office Action Summary

Art Unit: 2872

1. In view of the papers filed 10/09/01, the inventorship of this nonprovisional application has been changed by the deletion of Kenneth R. Harris.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and USPTO PALM data to reflect the inventorship as corrected.

2. The terminal disclaimer filed on 10/09/01 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent 5,822,092 has been reviewed and is accepted. The terminal disclaimer has been recorded.

3. Claims 95-97 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification, as originally filed, does not provide support for a storage medium encoded with machine-readable computer program code, wherein the computer program code includes instructions for causing an electro-optic system to implement a method of converting image data into a holographic pattern.

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686

Art Unit: 2872

F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970);and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321© may be used to overcome an actual or provisional rejection based on a non-statutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 89-94 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 12 and 16 of U.S. Patent No. 5,262,879. Although the conflicting claims are not identical, they are not patentably distinct from each other because the present application (09/168,585) discloses no additional invention or discovery other than what was already claimed and patented in U.S. patent 5,262,879 or what would have been obvious to one of ordinary skill in the art at the time the invention was made..

6. The amendment filed 10/08/01 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows:

The insertion of the language "As described above, the present...logic circuits" on page 25 of the specification.

Art Unit: 2872

Applicant is required to cancel the new matter in the reply to this Office Action.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
